

MEMO INFO GASQ

COVID-19

Good day,

GASQ grants the utmost importance to the health and safety of its customers, partners and employees. As we continue to monitor and adapt to the evolving challenges posed by COVID-19, the well-being of our extended network and families remains our top priority.

Although the health and safety of our customers and employees is a priority, we will continue to look after your needs. In the event of a disruption in our operations, we have contingency plans to continue to deliver our products and services to you and your clients, even if our workforce needed to be reduced.

This includes secure technology that allows our employees to work from home, which has been our daily practice for more than 10 years already.

The following actions has been taken in response to COVID-19 :

- Policies have been updated or set up for sick employees or that have concerns about potential exposure to the disease.
- External meetings and business trips have been limited and will be held by phone or teleconference or will be rescheduled.
- We actively monitor the warnings and recommendations of the government and appropriate health authorities.
- Our business continuity plan is up to date and our employees are informed.

Please don't hesitate to contact us if you have any questions or concerns. We wish you all the best as we work together to overcome this fast-evolving health crisis.

GASQ management team.
